SECOND SUPERSEDING INDICTMENT

THE GRAND JURY CHARGES THAT:

COUNT 1
Conspiracy to Traffic in Counterfeit Goods

Beginning in or about 2017, until on or about December 10, 2018, in the Eastern District of Arkansas and elsewhere, the defendant,

ANDREW SCOTT PIERSON,

voluntarily conspired with others known and unknown to the grand jury to intentionally traffic in goods, that is, Colt firearm parts, and, on and in connection with such goods, knowingly used counterfeit Colt marks identical to, and substantially indistinguishable from, genuine marks in use and registered for those goods on the principal register in the United States Patent and Trademark Office, and the use of such counterfeit marks was likely to cause confusion, to cause mistake, and to deceive. In furtherance of this conspiracy, in or about May 2017, ten unfinished,

80% complete, AR-15-type firearm lower receivers bearing counterfeit Colt marks were shipped from California to the Eastern District of Arkansas.

All in violation of Title 18, United States Code, Sections 2320(a)(1) and (a)(2), and Title 18, United States Code, Section 371.

COUNT 2
Conspiracy to Violate the Arms Export Control Act

The Arms Export Control Act

1. The Arms Export Control Act (AECA), specifically, Title 22, United States Code, Section 2778, authorizes the President of the United States to control the export of arms, munitions, and other defense articles by designating said items and promulgating regulations with respect to their export. The items so designated are set forth on the United States Munitions List (USML).

2. By virtue of the President's delegation of his authority under the AECA, the Directorate of Defense Trade Controls (DDTC) within the Department of State is charged with regulating the export of defense articles.

3. The AECA and its implementing regulations, the International Traffic in Arms Regulations (ITAR) (22 C.F.R. Parts 120-130), require a person to apply for and obtain a validated export license from the DDTC before exporting defense articles from the United States. In the export license application, known as a Form DSP-5, the exporter must identify the nature of the defense articles to be exported, the end-recipient, and the purpose for which they are intended. The AECA and the ITAR remained in full force and effect throughout the time frame of this Superseding Indictment.

4. Category I of the USML designates certain firearms and related components, parts, accessories, and attachments as defense articles subject to the ITAR. During the timeframe of the

events set forth in this Superseding Indictment, the 80% complete, AR-15-type firearm lower receivers described in Count 1 of this Superseding Indictment, were defense articles in Category I of the USML, and therefore prohibited from export from the United States absent a validated export license issued by the DDTC. During the timeframe of the events set forth in this Superseding Indictment, the Brownells bolt carrier groups and AR-14/M4 stripped upper receivers described in Count 2, paragraph 15 of this Superseding Indictment, were also defense articles in Category I of the USML, and therefore prohibited from export from the United States absent a validated export license issued by the DDTC.

11. In October and November 2018, ANDREW SCOTT PIERSON instructed ALEJANDRO QUIROZ, ABRAHAM AURELIO CALDERON, and ENRRIQUE OLIVAS to set up bank accounts in their names and the names of the fictitious business listed in paragraph 9.

12. From November 2018 to December 3, 2018, ANDREW SCOTT PIERSON and others used these accounts to pay for firearm parts and equipment ordered via the Internet and shipped to ALEJANDRO QUIROZ DBA ACR Restorations and ENRIQUE OLIVAS at locations in Laredo, Texas, which were transported across the Mexican border to ANDREW SCOTT PIERSON's firearm manufacturing operation in Nuevo Laredo, Mexico.
